MD MEJBAH UR RAHMAN SOWAD

Dhaka, Bangladesh | mejbahur13@gmail.com | +8801531988989 | linkedin.com/in/mejbah-ur-rahman | github.com/Sowad13

PROFESSIONAL SUMMARY

Customer-focused professional with experience managing large distributor and student portfolios, building trusted stakeholder relationships, and using data and AI tools to drive measurable operational and business outcomes. Proven ability to communicate clearly with English-speaking clients and teams, lead cross-functional projects, and translate data insights into actionable recommendations. Seeking to bring strong customer relationship management, technical fluency, and a proactive, data-driven approach to a Customer Success Manager role.

EXPERIENCE

Product Manager – AI Content & Video Production, DataInsightopia – *Dhaka, Bangladesh* **Jan 2026 – Jun 2026**

- Served as primary point of contact for client stakeholders, gathering business requirements and translating them into creative and technical briefs to ensure delivery aligned with client objectives — building trusted, ongoing relationships with each account.
- Led a small cross-functional team producing commercial video content using AI-driven creative tools and prompt engineering (Suno, Veo, Nano Banana/Flow), owning projects end-to-end from concept to final delivery.
- Managed a portfolio of concurrent client projects, prioritizing based on deadlines, scope, and client-defined success criteria, ensuring consistent on-time delivery and client satisfaction.
- Introduced AI-based production workflows that improved turnaround time and content quality, demonstrating the ability to identify efficiency gaps and drive adoption of new tools within a team.

Academic Mentor & English-Medium Tutor, Quick Study (UK) – *Remote* **May 2025 – Oct 2025**

- Delivered one-on-one and group instruction to UK-based students preparing for O Level and A Level examinations, with all communication — verbal and written — conducted in English.
- Built trusted, long-term relationships with students and parents (stakeholders), proactively identifying learning gaps and tailoring support to each student's needs rather than reacting to problems after they arose.
- Tracked individual student performance against target grades, delivering regular progress reviews to parents that connected effort and coursework to measurable academic outcomes.
- Managed a caseload of students across varying exam timelines, prioritizing attention based on performance risk and proximity to exams.

Customer Service Executive, Unilever Bangladesh Limited – *Dhaka, Bangladesh* **Mar 2024 – Apr 2025**

- Managed customer relationships and sales operations for 100+ distributor accounts across 3 of 4 national depots, acting as the key point of contact for distributor needs and service issues.
- Proactively identified process inefficiencies and built Python automation and Excel workflow solutions, saving an estimated 1,500+ man-hours annually and improving service reliability for distributor accounts.
- Built 5+ Power BI dashboards to monitor account and business health, using data-driven insights to inform stakeholder decisions and surface issues before they escalated.
- Collaborated with cross-functional teams on 2–3 projects to maintain high standards of service delivery and operational excellence across the distributor network.

Distribution Requirement Planner, Unilever Bangladesh Limited (Contractual) – *Dhaka, Bangladesh* **Jun 2023 – Feb 2024**

- Managed national distribution of stock from multiple production plants to 5 depots, ensuring timely, accurate delivery and maintaining stock-unavailability loss below 5%.
- Developed and implemented 15+ Python scripts to automate distribution planning, reducing manual effort and improving operational efficiency.
- Designed and maintained 2 interactive Power BI dashboards providing real-time visibility to support data-driven decision-making.

Professional Development & Active Job Search – *Dhaka, Bangladesh* **Jul 2026 – Present**

- Actively pursuing full-time opportunities in customer success and account management, while maintaining and expanding technical skills in Python, SQL, and Power BI through independent project work.

EDUCATION

B.Sc. in Computer Science and Engineering — Ahsanullah University of Science and Technology (2018 – 2022)
A Levels — Academia (2017)

SKILLS

Customer & Relationship Management: Account management, stakeholder engagement, client communication, training & enablement, escalation handling
Data Analysis: Python, SQL, Excel
Visualization & Reporting: Power BI, Tableau, Retool
Tools & Platforms: Git, Figma, MS Office, Jira
Other: AI-driven content tools and prompt engineering (Suno, Veo, Nano Banana/Flow)

PROJECTS

PLAN DIISH – Business Waste Alert Automation

- Automated business waste alerts using Python, reducing operation time by over 90% and minimizing non-value-adding tasks; built a dynamic model predicting month-end sales value with over 97% accuracy. Tools: Jupyter Notebook, Excel, Python.

Uttor – AI-Powered Customer Reply Automation for SMEs

- Built a B2B service that automates customer replies for Bangladeshi SMEs across WhatsApp and Facebook Messenger, using Claude Haiku as the AI engine, with a client dashboard for conversation management. Tools: Node.js, Express, WhatsApp Cloud API, Messenger API.

Dhaka Air Pollution Analysis

- Conducted SQL-based analysis of Dhaka's air quality against WHO and Bangladesh standards; built an interactive Power BI dashboard identifying PM2.5 as the most critical pollutant across years. Tools: Excel, SQL, Power BI.
